FOLDING | CREASING NUMBERING | PERFORATING

AEROFOLD PLUS

330x488mm max.
From 54 to 230gsm
Up to 18,000 sheets/hr
Fully Automatic
Perforating optional

COUNT KF 200

Knife Folding Machine – attaches to basically any creasing machine
Up to 4,300 sheets per hour
From 120 to 360gsm
Up to 368 x 838mm sheets
Touch Screen
3 Years Warranty

COUNT KF 250

Automatic Knife Folding Solution
Bottom Suction Knife Folding Machine
Up to 4,300 sheets per hour
From 120 to 360gsm
Up to 330 x 838mm sheets
Touch Screen
3 Years Warranty

FC114

Touch Screen
Friction Feed Operation
Automatic Set Up
Up to 4,500 sph Creasing - 8,000 sph numbering
- 12,000 sph perforating
60 to 360gsm
Max Sheet 457 x 660mm
Pneumatic Numbering, self inking cartridge System

FC114 A/ASP

Touch Screen
Bottom Suction Feed
Automatic Set Up
Up to 4,500 sph Creasing - 8,000 sph numbering
- 12,000 sph perforating
60 to 360gsm
Max Sheet 457 x 660mm
Pneumatic Numbering, self inking cartridge System
ASP Version with Skip Perforation

UCHIDA

Count
MADE IN USA

CREASING | FOLDING SLITTING | CUTTING

COUNT ICREASE PRO

Touch Screen
Hand Feed Operation
Automatic Set Up
Up to 1,200 sheets per hour
60 to 360gsm
iCrease Pro + with Perforating Option

Count EZ Creaser

Touch Screen
Friction Feed Operation
Automatic Set Up
Up to 4,500 sheets per hour Creasing and 12,000 perforating
60 to 360gsm
Max Sheet 432 x 660mm
Perforating built in

ACCUCREASER

Touch Screen
Suction Feed Operation
Automatic Set Up
Up to 5,500 sheets per hour Creasing and 12,000 perforating
60 to 360gsm
Max Sheet 457 x 660mm
Perforating built in

ACCU-KF200 COMBO

Creaser Folder Combination
Touch Screen
Suction Feed Operation
Automatic Set Up
Up to 4,300 sheets per hour Creasing and Folding
120 to 360gsm
Max Sheet 368 x 660mm

AEROCUT ONE

Slitter/Cutter/Creaser
Up to 370 x 700mm
Up to 400gsm
Top Suction Feed
Over 20 sheets per minute

AEROCUT PRIME

Slitter/Cutter/Creaser/Perforator
Cross & Jump Perforation
Up to 370 x 890mm
Up to 400gsm
Top Suction Feed
Over 30 sheets per minute

PERFECT BINDING EVA & PUR

Up to 370 x 700mm
Up to 400gsm
Top Suction Feed
Over 20 sheets per minute

CHAMPION 305 & 370
774mm / 940mm
Fully Hydraulic
Colour Touch Screen
Heavy Duty

AEROCUT PRIME
Slitter/Cutter/Creaser/
Perforator
Cross & Jump Perforation
Up to 370 x 890mm
Up to 400gsm
Top Suction Feed
Over 30 sheets per minute

**DIGITAL ROTARY DIE
CUTTER**
RDC-3852
Top Suction Feed
Up to 4000 sheets per hour
Up to 381 x 520mm die size
Up to 400gsm paper weight

PUNCHING | BINDING WIRE | PLASTIC SPIRAL

DIAMOND PUNCH

Heavy Duty Desktop Punch
Interchangeable punching tools
Depth Margin adjustable
Up to 356mm punching width

ULTRAMAC

Semi Automatic Punching System
Punch, Eject and Stack in one operation
2.5 times the speed of an Electric Punch
Same Punching Tools as Diamond Punch
Foot Pedal or Auto Mode

HEAVY DUTY PUNCHING P500

Punch bites of up to 2.5mm regardless of material
Convenient tool storage underneath the tray
Large confetti tray
Disable pins on punching tools
Max sheets size 500mm wide

EPX700

Wide variety of punching tools incl. perforating tools
Interchangeable punching tools with EX610
Max sheet widths 700mm
Up to 3.0mm punching capacity
Up to 90 cycles per minute

AUTOMATIC PUNCHING - CopyPunch

Touch pad control for simple operation
Tool change in seconds
Automatic Feeder
Tab feeding Option
Max 300x300mm sheet size
Up to 10,800 sheets per hour
Desktop or Stand Option

AUTOMATIC PUNCHING - DocuPunch

Quick and easy set up
Automatic Feeder
Fast tool change
Compact in size
Max 330x300mm sheet size
Up to 70 cycles per minute

AUTOMATIC PUNCHING - AlphaDoc

Automatic Feeder
High productivity with up to 90 cycles per minute
Touchpad for simple set up and operation
Wide variety of punching tools
Max sheet size 350x330mm

PUNCHING | BINDING WIRE | PLASTIC SPIRAL

SEMI AUTOMATIC CLOSING

EB 3500/5000/7000 - Wire closer

Simple and quick size adjustment
Optional hanger feeder on EB5000/7000
Optional stand for EB5000/7000
Max sheet size widths 350mm/500mm/700mm
Closing Capacity up to 38mm (EB3500)

BM360 SEMI AUTOMATIC BINDING MACHINE

Uses binding wire spools in 3:1 and 2:1
Cuts wire to desired size
Touch Screen
From 70mm to 360mm books

AUTOMATIC CLOSING

Wire-O Bind Mini - 300mm wide - 3:1- 2:1
Entry Level automatic inserting / closing

Wire-O Bind 3500 / 5000 - 350 / 500mm wide
500 to 1000 books/ per hour depending on size
Optional hanger feeder

FINISH @ COIL E

Full length roller
Foot Pedal
Electric Crimp and Cut

FINISH @ COIL M

Full length roller
Foot Pedal
Manual Crimp and Cut

CRIMP@COIL

Up to 50mm in thickness
Up to 54 books per min
Double sided electric crimpers

SPIRAL BINDING - METAL

SFI 330

Semi Auto metal wire former and inserter

INDUSTRIAL PUNCHING & BINDING

HIGH VOLUME AUTOMATIC PUNCHING EX610

Running up to 7,200 cycles per hour
Punches virtually any type of stock
Tab cutting option
High Pile delivery with trolley or conveyor option
Max sheet size 610x530mm

HIGH VOLUME AUTOMATIC PUNCHING EM450

Machine for signature punching applications
Up to 10,000 cycles per hour
Optional EMC module with lateral knife
SP model has automatic size adjustments
Automatic synchronization with folding machine

HIGH VOLUME WIRE CLOSING BB50

High Output for sheet sizes from 5 to 50cm
Up to 1,200 documents per hour
Instant pitch change between 3:1 and 2:1
Skip binding facilities
Up to 22mm book thickness

INDUSTRIAL WIRE BINDING SOLUTIONS

BB400 Speedbind

Up to 3,000 A4 documents per hour
Bind or punch& bind version available
Fully automatic and can be run by one operator only
Closing range from 6.4mm wire to 25.4mm wire
with multiple skips binding
Optional board feeder
Inner sheets can be punched in line with the BB400P
Max sheet 400 x 400mm | Min sheet 110x110mm

INDUSTRIAL WIRE BINDING SOLUTIONS

BB520P Speedbind

Automatic high speed punch & bind machine
Designed for wall calendars
Format from 250 x 210mm to 520x800mm
Up to 3,000 calendars per hour
Punch thickness up to 5mm

LAMINATING FROM DESKTOP TO A1 PRODUCTION

SD POUCHLAM 330

Mid Range Pouch Laminator
2 Hot and 2 Cold Rollers
From 45mm to A3
Up to 250 microns

SD POUCHLAM 330 PRO

Professional Pouch Laminator
4 Hot and 2 Cold Rollers
From 45mm to A3
All Metal Construction
LED Display Up to 250 microns

SD LAM 1

Entry Level Laminator
Heat Rollers with manual pressure adjustment
Single Sided or Double Sided lamination
Hot or Cold lamination
Mounting up to 5mm

SD LAM 2

Automatic Friction Feed
Heat Rollers with manual pressure adjustment
Perforation Wheel for ease sheet separation
Single Sided or Double Sided lamination
Decurling device for flat sheet output
Stand Included
Optional Bursting Unit available

SD LAM 6

Entry Level Automatic Laminator
Touch Panel Control
Auto Feeder with advanced friction feed
Automatic Bursting
Optional Foiling Attachment
Speed: Up to 6M/min
Sheet Size: Up to 380x650mm

SD LAM 52CA

Sheet size: 520x720 mm
Paper weight: 110-350 gr/m2
Speed: Up to 15M/min
Pressing force: 18 kN
Machine weight: 450 kg
Auto Burst
Decurling
Stream Feed
Heavy Duty Construction

SD LAM 503

Sheet size: 520x720 mm
Paper weight: 110-600 gr/m2
Speed: 30m per minute
Pressing force: 23 kN
Machine weight: 950 kg
Machine dimension: 290x110x160cm
Auto Burst/Decurling/
Stream Feeder

SD LAM 703

Sheet Size: 720 x 1040mm
Paper Weight 110 to 350gsm
Up to 30M/min
Auto Feeder with top suction through suction cups (like offset press)
5.7" Touch Screen Control
Bursting (separating) unit with perforator
Decurling device for flat sheet output
5 Zone Heating System

SD LAM 760

Sheet size: 720x1040 mm
Paper weight: 110-350 gr/m2
Speed: 50m per minute
Pressing force: 43 kN
Machine weight: 2100 kg
Machine dimension: 5,3x1,5x1,6m
Auto Burst/Decurling/Stream Feeder

LAMINATOR

WIDE FORMAT LAMINATING AND TRIMMING

DH650 / 800 / 1100 HOT ROLL LAMINATOR

Entry Level
635mm / 800mm or 1050mm wide
Up to 2M/min
Hot or Cold Operation
Adjustable speed, temperature and film tension
Optional Stand available

POLAND HEAT ASSISTED LAMINATOR

Crowned Rollers (no creases)
1080mm wide (42.5 inch)
Up to 7M/min
Heat assist (Cold only version available)
Well proven and reliable
For most mounting and coating applications
Optional rewinder

HOLLAND HEAT ASSISTED LAMINATOR

Crowned Rollers (no creases)
1400mm wide (55 inch)
Up to 7M/min
Heat assist (Cold only version available)
Well proven and reliable
For most mounting and coating applications
Optional rewinder

DENMARK HEAT ASSISTED LAMINATOR

Crowned Rollers (no creases)
1650mm wide (64 inch)
Up to 7M/min
Heat assist (Cold only version available)
Well proven and reliable
For most mounting and coating applications
Optional rewinder

NEOLT SHIELD LAMINATOR

Professional Laminator
1650mm wide (64 inch)
Up to 4M/min
Up to 30mm thickness
Pneumatic Operation / Internal Compressor
Made in Italy

TRIM BOARDS

Cutting Length: From 100 to 250 cm
Max cutting thickness: 0.8 mm
Height with stand: 98 cm
Robust build, steel frames
Stands are optional

NEOLT SWORD VERTICAL TRIMMER

Light Body Frame but strong and reliable
Quick Tool change
Cutter for foam, board, glass and composite board.
Available in three heights: 1650, 2100 or 2300mm
Made in Italy

LAMINATOR

neolt
Factory

FOILING

FOILTECH FT-12 FOILTECH FT-12AF

Max paper size 320mm x 300mm
Min paper size 110mm x 50mm
Max Roll widths 320mm
Max Paper thickness 350gsm
Speed 800mm per minute to 3250mm per minute
Single Foil

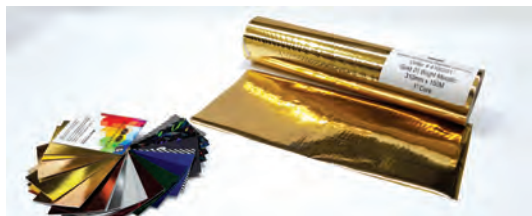

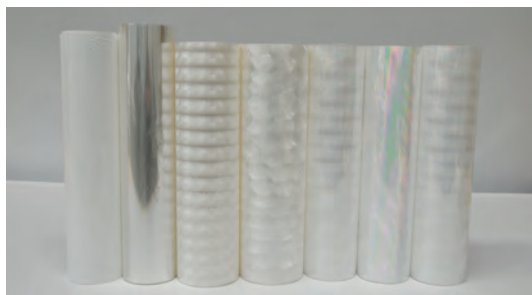

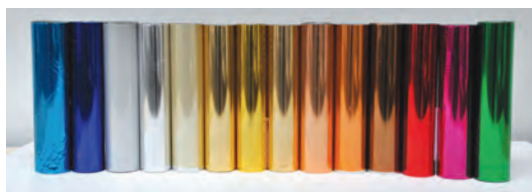

FOILTECH FT-22 FOILTECH FT-22AF

Max paper size 320mm x 300mm
Min paper size 110mm x 50mm
Max Roll widths 320mm
Max Paper thickness 350gsm
Speed 800mm per minute to 3250mm per minute
Dual Foil

SD LAM 1 FOIL

Entry Level Laminator
Rewind Roller for foiling
Heat Rollers with manual pressure adjustment
Single Sided or Double Sided lamination

The foils react to toner and therefore it is possible to get the smallest area foiled.

The FoilTech machines come with single roll and dual roll versions.

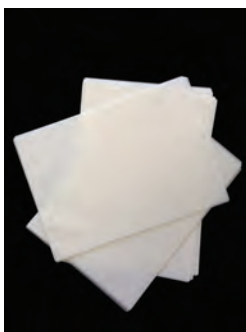

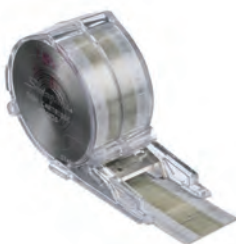

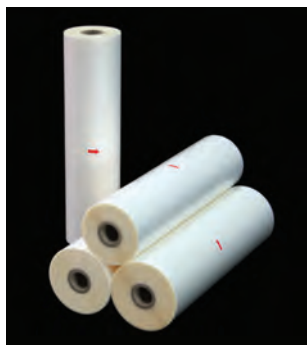

Our foils come in many different colours. We offer metallic foils, pigment foils, clear foil to resemble Spot UV and holographic foils

Just ask us for a colour swatch!

CONSUMABLES

LAMINATING SUPPLIES | WIDE FORMAT MEDIA

PERFECT BINDING ADHESIVES | STAPLES

Seriously Digital offers a wide range of laminating consumables:

BOPP Laminating Film from 315mm wide to 510mm wide

Velvet/Soft Touch, Digital Film and Standard Film

We offer a wide variety of wide format film and media.

Monomeric and Polymeric Cold films, thermal films, Self Adhesive Vinyls and banner material

Laminating Pouches

Laminating Pouches - A5 / A4 / A3 from 80 to 250mic

Perfect Binding spine glue, side glue, and extra sticky spine glue.

PUR candles, PUR pellets and PUR Cleaner

Padding Compound (PVA Glue)

Staples and Staple Cartridges for various booklet makers

DRILLS | ROUND CORNERING PRESS ROOM | JOGGERS

MS-5 DRILL
Up to 5 drill heads
Hydraulic Table
Foot Pedal Operation
Up to 13mm drill bits

HANDY DRILL
Single Spindle Drill
Manual Lever
Up to 12.7mm drill bits

JF DRILL
Up to 5cm Drilling Capacity
Foot Pedal Operation
Up to 12.7mm drill bits
Round Cornering avail.

Single Cornering Machine
Manual - Hydraulic
Round Cornering Machine
Up to 10cm stack
Different knives available
Heavy Duty Construction

SD S-100
Manual Round Corner Cutter
Four different Radius Knives
available
Cuts up to 10mm

SD S-600
Electric Round Corner Cutter
Seven different Radius
Knives available
Cuts up to 50mm

PAPER JOGGERS
From Bench Top A3
to Stand Alone A1

PADDING PRESSES

CARTS

MP CW2201SP

3.8 ppm B&W
2.1 ppm Colour
Colour Touch Pad

MP W6700SP

B&W Toner based Printing & Copying
6.7 ppm (A1)
Paper from 210 to 914.4 x 15,000 mm
2 Roll Paper Draw
Standard Colour Scan URL/Email
Embedded Scanner and printer with 600dpi
8.5 inch colour touch screen

MP W8140SP

B&W Toner based Printing & Copying
14 ppm (A1)
Paper from 210 to 914.4 x 30,000 mm
2 Roll Paper Draw Standard, additional 2 Roll Feeder available
Standard Colour Scan URL/Email
Embedded Scanner and printer with 600dpi
8.5 inch colour touch screen

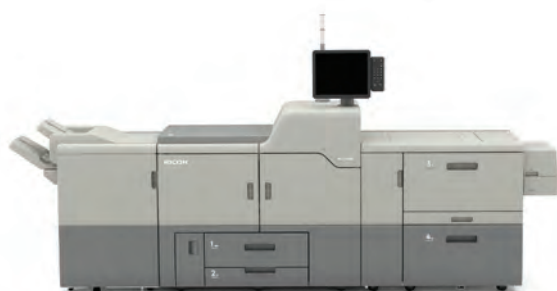

OKI PRO 9000 Series

The OKI Pro 9000 Series are the latest generation of the OKI LED printer range.
The printers are available as 4 colour or 5 colour machines with the ability to print white or clear.
1200x1200dpi resolution
Card Stock up to 450gsm
Sheet Size up to 330 x 1321mm

RICOH PRO C5200S / 5210S Series

65 or 80 ppm
Wide range of inline finishing equipment
Up to 360gsm
Banners up to 1260mm in lengths
Plockmatic Booklet Maker option

RICOH C7200 / C7210 Series

4 or 5 colour (5th colour options are clear / white/ Neo Yellow / Neon Pink and invisible Red)
85or 95PPM
Up to 360gsm Auto Duplex
Up to 330 x 1260mm sheet size (with optional banner tray)
Up to 700mm Auto Duplex
White as a first colour possible
Extensive Inline Finishing capabilities
Plockmatic Booklet Maker option

RICOH C9200 / C9210 Series

Mechanical Paper Registration Unit
Up to 470gsm Auto Duplex
Up to 330 x 1080mm Auto Duplex
Max 330 x 1260 sheet size with optional banner tray
115 or 135PPM
Wide inline finishing range
Plockmatic Booklet Maker option

RICOH PRO 8200 Series

95 / 110 / 135ppm
Scan Optional
1200 x 4800 dpi
Long Sheet Option
Wide inline finishing range
Plockmatic Booklet Maker option

Seriously Digital offers repairs and maintenance of many print finishing machines.

We offer service on machines not supplied by us and offer a back to base service for small machines

Seriously Digital has service partners in most states in Australia.
